## BOXING YOUR WAGERS:

Boxing can be used for the Exacta, Trifecta, and Superfecta wagers only. It covers all possible combinations of your selected winners for that particular race. Because you are covering all possible finishing combinations, your wager will be more money.

- For example - a Trifecta Box you select 3 horses. As long as those 3 horses finish in 1st, 2nd, and 3rd in any order you win.
- 20¢ Trifecta Box with #1, #4, #7 (will cost you \$1.20, because there are 6 different possible finishing combinations 20¢ each combo)
